

PROcheck systematizes all instruments and actions with which you can keep an eye on the efficiency and potential of your processes at all times and optimize your success: **diagnostics, equipment, consumables, original parts, modernization & modification, service, systems & plants, process engineering.**

With PROcheck, we show you very specifically where and how you can sustainably maximize your productivity and thus your results over the entire life cycle of your plants, systems and machines. So that you'll be also in perfect flow in the future!

Our PROcheck promise

Our ideas, our conviction and our understanding of this approach have a lot in common with all of our private lives. After all, it makes sense to identify the roots of our challenges, to focus on the right equipment, to consume intelligently and sustainably, to replace what needs to be replaced, to keep adapting to current requirements, to combine our own experience with the know-how of experts, to implement plans and goals with uncompromising, comprehensive solutions, and to shape concepts and ideas with experience-based services.

Sustainability for a livable future

Sustainability is a core value for us and our parent company HAVER & BOECKER: We make decisions taking into account long-term consequences for the HAVER & BOECKER family, for the entire universe of our customers and for the well-being of future generations. We follow this fundamental approach and strive with all our technologies to improve living conditions for humanity. That's our mission!

PROCHECK
 WE ARE ALWAYS THERE FOR YOU

We are at your side throughout the entire life cycle

Mastering the three dimensions of product, packaging or screening media and machine technology is the basis of our expertise and the starting point for your perfect flow. With our PROcheck life-cycle approach, we add the time component and accompany you on the way to your goal. We understand it as our philosophy and it's our understanding for a functioning and successful partnership to always have your process in view and to look after it throughout its entire life cycle with our products, our services and our tools. We've developed PROcheck as an orientation for precisely this because „we are always there for you“.

A HAVER & BOECKER Company

For Packaging Food

Combine your experience with our expertise

No one has as much experience in dealing with your plants as you do. Imagine what could happen if you combined this experience with the perspective of the people who built it. Achieve your goals with an unparalleled range of services that are individually tailored to your process.

SERVICES

- Services: Commissioning, Assistance, Support, Health & Safety, Calibration, Documentation, Training & Consulting
 - Operation and Maintenance
- Contact: Jonas Komitsch

Uncompromising solutions for your processes

Make no compromises when it comes to your process. After all, nothing is more important for your success than your very own product and process. So make sure that your plants and systems are designed to meet your products' specification rather than the other way around. Instead of employing a generalist to supply your plants and systems as cheaply as possible, why not deploy a family of specialists to get the job done as profitably as possible?

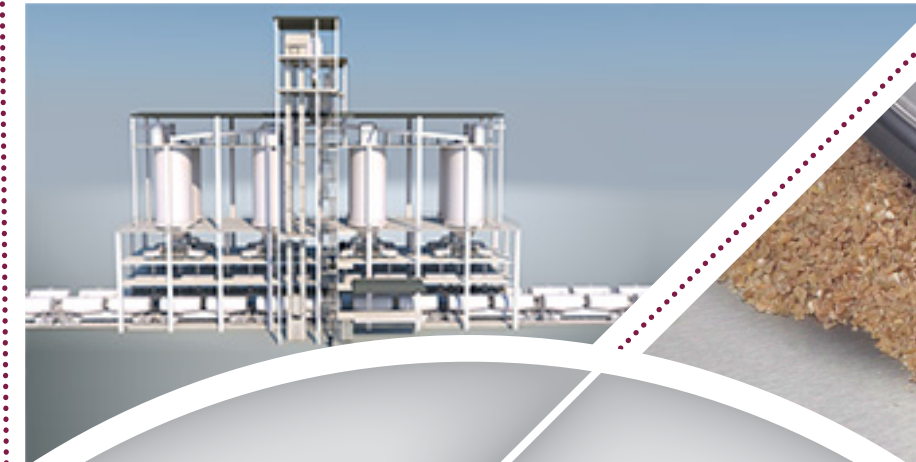

Shape your concepts and ideas

The better the plan, the easier, faster and more profitable the execution. It has been proven, that by investing a bit more energy in the engineering stage, you can save a lot of time and money during the realization stage. We offer a complete line of Process, Concept and Detailed Engineering services as well as some very specialized products.

PROCESS ENGINEERING

Identify the root cause

Every good doctor knows: The key to good health is not treating symptoms, but identifying the cause. Your process is no different. Don't spend an endless amount of time and energy fighting the symptoms. Remedy the cause with our help and with smart services, software and analytical devices. Because only healthy processes are really economical.

DIAGNOSTICS

- Plant Optimization Plan
 - Bag Testing Equipment
 - Product Testing Equipment
 - QUATRO® System Intelligence
- Contact: Jonas Komitsch

E-mail: j.komitsch@behnates.com

Use the right equipment

In industrial processes, it is like in sports: You can only achieve peak performance if your heart function is adapted to the task at hand. The heartbeat of any process is generated by the machine technology that drives it. Do not compromise when it comes to the most important organ of your process. Make sure that the technology you use is adapted to your product and not the other way around. The development of our technology brands is driven by precisely this conviction and by the passion to make you as successful as you want to be.

EQUIPMENT

- ELEMENTRA® – Semi-Automatic
 - INTEGRA® – Fully Automatic
 - ROTO-PACKER® – High-Speed
 - TOPAS® – High-Speed FFS
 - RADIMAT® – Bag Applicator
 - ADAMS® Technology
 - SEAL Technology
- Contact: Christoph Ransiek
Phone: +49 251 9796-252
E-mail: c.ransiek@behnates.com

Prolong the life-time of your equipment

Time does not stand still. Your process will age and it may even change. That does not mean that you need to invest into a new one. Why not simply prolong or better yet enhance the life of your equipment?

REBUILDS & UPGRADES

- PERFORMANCE® Rebuilds & Kits PACKING machines
 - ELEMENTRA® • ROTO-PACKER®
 - INTEGRA® • RADIMAT®
- Contact: Jonas Komitsch

E-mail: j.komitsch@behnates.com

Replace what needs replacing

Our BEHN + BATES original parts are your guarantee: the guarantee that your system will run optimally. Do not let inferior spare parts cause unplanned downtime, a breakdown or, in the worst case, even accidents. Don't compromise; buy original parts.

E-mail: j.komitsch@behnates.com

Consume intelligently

Did you know that some processes spend more money on the annual requirement of consumables, than they spent on the original one-time investment of equipment, which requires them? Consumables are the fuel for your process. You need the right material for peak performance and success. We consult, design and even provide your consumables for every step and phase of your project. Regardless of whether you are commissioning, ramping up or you simply want to optimize your process on an ongoing basis.

CONSUMABLES
